Prolystica™ Ultra Concentrate

HP Enzymatic Detergent

GENERAL DESCRIPTION

Prolystica Ultra Concentrate HP Enzymatic Detergent is designed to be a high performance product for use in hospital washer/ disinfector units and automated mechanical washers for processing appropriate medical devices, including surgical instruments. Not for use in ultrasonic washers. Prolystica Ultra Concentrate HP Enzymatic Detergent is compatible with stainless steel, plastics and soft metals, including aluminum. This product is specifically designed to clean heavily soiled orthopedic instruments.

FEATURES	BENEFITS
Ultra concentrate	Ergonomically friendly; easy to lift, move and store.
Dual enzyme system	Exceptional performance within a broad range of water quality and type.
Effective enzymatic/detergent system	Effective on blood, fat, mucous and other soils, especially orthopedic soils.
Neutral pH	Broad spectrum substrate compatibility including aluminum, anodized aluminum and plastics.
Maintains pump pressure and arm movement	Maximizes washer impingement and cleaning efficiency.
Low foam	Easy to rinse.
Biodegradable chemistries	Environmental stewardship.

TYPICAL PHYSICAL PROPERTIES

Form	Liquid
Color	Light straw to amber
Odor	Mild
pH	7.0
Typical pH at 1/10 oz/gal	6.2
Typical specific gravity	1.06

DIRECTIONS FOR USE

Prolystica Ultra Concentrate HP Enzymatic Detergent may be automatically dispensed at 1/40-1/10 oz/ gal (0.2-0.8 mL per L) depending on water quality and application.

Consult the manufacturer's recommended reprocessing instructions to determine any additional procedures necessary to clean their particular device.

Medical devices should be sterilized or disinfected by appropriate means in a separate subsequent step.

STORAGE AND DISPOSAL

Store in a cool place (below 90°F [32°C]). Keep out of the reach of children. Dispose in accordance with local, state and federal regulations. Empty containers should be rinsed and discarded in a waste container or offered for recycling if possible. Do not use empty containers for other purposes.

SUPPORT

Service

Service is one of the most important ways to verify consistent quality of the facility's performance and operation. A tailored service program by STERIS provides effective, trouble-free operations.

Technical

Contact STERIS for information regarding product applications, the product in general or copies of Safety Data Sheets (SDS). For information regarding human and environmental exposure, call STERIS's St. Louis operations regulatory affairs group at 314-535-1395.
