1 Product description

Intended Purpose

medi Arm fix Kidz® is a shoulder joint support for immobilising the shoulder in a defined position.

Indications

All indications requiring immobilisation of the shoulder joint in internal rotation, such as:
• Nonsurgical treatment after anterior shoulder dislocation and /or chronic subluxation
• After rotator cuff repair
• Acromioclavicular joint dislocation (nonsurgical, postoperative)
• Scapula fractures (nonsurgical, postoperative)
• Fractures of the humerus head (nonsurgical, postoperative)

Contraindications:

• All indications that specifically require abduction and/ or external rotation
• Nonsurgical and postoperative treatment of posterior shoulder luxation

Risks / Side Effects:

If the aids are too tight, this can cause local pressure sores or constriction of blood vessels or nerves. Therefore you should consult the doctor treating you before you use it if the following circumstances apply to you:

- Condition or injury of the skin in the area of application, particularly with infectious indications (excessive heat, swelling or reddening)
- Paresthesia and circulatory disorders (e.g. as seen in diabetes, varicose veins)
- Lymph drainage disorders – equally, swelling of soft tissue adjacent to the area of application which is not related to a condition

When wearing snug-fitting aids, this can result in localized skin inflammation or irritation that is due to mechanical irritation of the skin (particularly in conjunction with sweating) or due to the composition of the material.

1.1 Material composition

Polyamide, polyester

1.2 Presentations

medi Arm fix Kidz: R.050K19

1.3 Measurements

Size	Length bag	Height bag	Length shoulder strap	Length waist belt	Length upper arm strap	Weight	max. circumference
Arm fix Kidz	8 cm	ca. 9 cm	73 cm	78 cm	29 cm	115 g	72 cm

2 Safety instructions

Important Notes:

This medical device is made for single patient use only. If it is used for treating more than one patient, the manufacturer's product liability will become invalid. If undue pain or an unpleasant sensation develops while you are wearing the product, please consult your doctor or orthotist immediately. Do not wear the product over open wounds and use it only as instructed by your doctor or orthotist.

3 Storing conditions

Keep the product in a dry place and do not expose to direct sunlight. 

4 Chemical substances

Contact with chemicals (e. g. benzole, methanol, salicylic acid in high concentrations) may have adverse actions on the effect of the product. Do not apply ointments or oils before putting on the product.

5 Care instructions

Hook and loop fasteners should be closed for washing. Soap residues, lotions and ointments can cause skin irritation and material wear.

- Wash the product by hand, preferably using a medi clean detergent, or in delicate cycle at 30°C using a mild detergent without fabric conditioners.
- Do not bleach.
- Leave to dry naturally.

• Do not iron.
• Do not dry clean

6 Packaging/Labeling

Product is sent out in folded box with CE mark und manufacturer address. Product and box labeled for clear identification and traceability.
Fitting instructions included.

7 Shelf Life

Expiration date for storage: 60 months

8 Disposal

The product can be disposed of in the domestic waste. 
Please ensure a proper and suitable disposal of the used products to prevent any risk to human beings and the environment.
