1 Product description

Intended Purpose

medi Armschlinge Kidz is a shoulder joint brace for immobilisation in a defined position.

Indications

- All indications requiring immobilization of the shoulder joint in internal rotation, such as:
- Nonsurgical treatment after anterior shoulder dislocation and /or chronic subluxation
- After rotator cuff repair
- Acromioclavicular joint dislocation (nonsurgical, postoperative)
- Scapula fractures (nonsurgical, postoperative)

- Fractures of the humerus head (nonsurgical, postoperative)

Contraindications

All indications that specifically require abduction and/ or external rotation

Risks / Side Effects

If the aids are too tight, this can cause local pressure sores or constriction of blood vessels or nerves. Therefore you should consult the doctor treating you before you use it if the following circumstances apply to you:
• Condition or injury of the skin in the area of application, particularly with infectious indications (excessive heat, swelling or reddening)
• Paraesthesia and circulatory disorders (e.g. as seen in diabetes, varicose veins)
• Lymph drainage disorders – equally, swelling of soft tissue adjacent to the area of application which is not related to a condition
When wearing snug-fitting aids, this can result in localised skin inflammation or irritation that is due to mechanical irritation of the skin (particularly in conjunction with sweating) or due to the composition of the material.

1.1 Material composition

Cotton, polyamide

1.2 Presentations

Article number R040GK1 - size I (from 3 to 8 years)

Article number R040GK2 - size II (from 8 to 12 years)

Article number	Size	Bag length	Bag height	Length Shoulder strap	Length waist strap	weight
R040GK1	I	26 cm	12 cm	55 cm	95 cm	100 g
R040GK2	II	30 cm	14 cm	65 cm	95 cm	110 g

1.3 Features
