1 Product description

Intended Purpose

medi Clavicle support Kidz is a clavicle support for positioning and immobilising the clavicle.

Indications

All indications which require positioning and immobilization of the collarbone for example following:
• Dislocations of the clavicle
• Sprains and fractures of the clavicle

Contraindications:

• Compression of the airways
• Compression of the neurovascular bundle

Risks / Side Effects:

If the aids are too tight, this can cause local pressure sores or constriction of blood vessels or nerves. Therefore you should consult the doctor treating you before you use it if the following circumstances apply to you:

- Condition or injury of the skin in the area of application, particularly with infectious indications (excessive heat, swelling or reddening)
- Paresthesia and circulatory disorders (e.g. as seen in diabetes, varicose veins)
- Lymph drainage disorders – equally, swelling of soft tissue adjacent to the area of application which is not related to a condition

When wearing snug-fitting aids, this can result in localized skin inflammation or irritation that is due to mechanical irritation of the skin (particularly in conjunction with sweating) or due to the composition of the material.

1.1 Material composition

Polyester, cotton, polyamide

1.2 Presentations

Size I: blue, age 3-8 years R333011

Size II: blue, age 8-12 years R333012

size	age	Width back bad	Hight back pad	Max. length strap	Weight
I	3 – 8	12,5cm	9,5cm	29cm	62g
