Application areas	Hospital | Old people's home | inc. specialist circles Medical practices  

Standards

VO (EU) 2023/988	Regulation (EU) No 2023/988 on general product safety

Use

Instructions for use	Before use Check the collection bag for damage or defects. Make sure it is clean and undamaged. Use Keep the collection bag to hand if you or somebody else is displaying first signs of nausea or vomiting. The collection bags or sick bags are used to catch vomit and ensure a hygienic and clean environment. Hold the collection bag open with one hand by pulling the bag opening slightly apart. The bag is then ready to catch vomit. If the person vomits, move the bag carefully to the mouth and ensure that the vomit lands safely in the bag. After the person has vomited, close the bag carefully to avoid spilling. Dispose of the closed collection bag immediately in a suitable waste container. Wash your hands thoroughly after using the collection bag in order to prevent transferring germs.
Safety notice	According to our risk analysis under EN ISO 14971:2019 + A11:2021, no additional safety instructions are required for this product.
Disposal	Unused and uncontaminated products can be incinerated in an environmentally friendly manner or disposed of at a waste disposal site. Contaminated products must be disposed of in accordance with the national laws and regulations valid for the respective type of contamination.
Shelf life	5 years from the production date, if unused and stored correctly.
Storage	Keep out of direct sunlight. Store in a dry place. Incorrect storage can lead to a reduction in the shelf life.  
Traceability	Batch-related traceability from the determination of requirements to issuing. Product data sheet Version 1 Valid from Batch 2719 +
